Commissioners returned to the office.

Commissioners Schroeder, Schlumbohm and Lammers held discussion on the airport appraisal. The land around the airport will be designated for airport use and no other development. An appraisal was done and the Prosecutor is working on the land purchase agreement. A grant will be applied for by the Airport Board and the Commissioners will be paid for the land through the grant. A map viewing the 3 parcels designating Airport use was viewed. The area is approximately 11 acres total.

Commissioners Schroeder, Schlumbohm and Lammers met with Greg Luersman to discuss the flood plain and the diversion channel. Steve Coburn Griffith joined the meeting. Greg said he has been getting phone calls the past few weeks about the dirt from the diversion channel and placing it in low spots in a flood plain. In the plans for the diversion channel the soil cannot be put back into a flood zone. Bockrath and Assoc. and the Put Co Engineer has also been in on the conversation. The village of Ottawa has land that some of this dirt could be put on. The county does own land that could be storage. There is some going out to the Landfill. It could be a challenge to get rid of the dirt. Greg is concerned about the dirt being put back in to the flood zone. The Maumee Valley Conservancy District is looking to get rid of the dirt and the contractor would have to find an approved sites. The dirt could be gradually moved from the approved site and into a flood zone. How can this be policed? The bid opening was last week for the contractor for the diversion channel. How can this be controlled? A proposal of having people getting the dirt signing contracts about where the dirt will go. The Commissioners do not have an answer and it should have been addressed in the bidding documents. Bockrath & Assoc. will do what they can to control the dirt going back into the flood zone. Greg recommended that the Commissioners should have passed the rule of not creating more than 1 foot of rise for any changes to the flood plain. Mr. Schroeder said more education of the people informing them of the changes that are not allowed, is an option. The Planning Commission website has the regulations written out.

Mr. Schlumbohm moved to adjourn for the day.

Mr. Schroeder seconded the motion.

Vote: Schroeder yes Lammers yes Schlumbohm yes
